

Computing Road Map

	Programming	Programmers integrate algorithms and abstraction to create programs for creative purposes and to solve problems.
	Creative Media	When developing computing innovations, developers can make projects that are personally meaningful and self-directed.
	Presenting	A form of self-expression. Preparing appropriate visuals to communicate with an audience.
	Data and Information	A collection of information that we can sort and use to further our understanding.
	Computer Systems and Networks	Computer systems and networks are used to transfer data
	Impact of Computing	To use computing safely and responsibly, we need to be aware of privacy, security, and ethical issues

Impact of Computing

Autumn 1	Smart Rules Self image and identity
Autumn 2	Online Relationships Online Reputation
Spring 1	Online bullying Managing online information
Spring 2	Health, Wellbeing and Lifestyle Privacy and Security
Summer 1	Copyright and ownership
Summer 2	Recap and review
